| Dues Increase |  |  |  |  |  |  |  |  |  |  |  | \$100,000.00 |  |  |  |  |  |

With this Eight Year Capital Plan, the Board feels that we should NOT have to increase our dues over the next five (5) years. We must still be fiducially responsible and realize that we cannot control certain costs. In saying that, the only increases we will entertain would be $\$ 5.00$ to $\$ 10.00$ per year if needed.
